Excellence  
Expertise

## RESIDENCY AND FELLOWSHIP PACKAGES

Welcome to ATPPS, the premier organization dedicated to advancing the role of athletic trainers in physician practice.

Our mission is to provide a strong voice and unwavering support for athletic trainers, empowering them to deliver exceptional care and contribute to positive patient outcomes. With a focus on education, advocacy, and collaboration, we strive to enhance the professional development of athletic trainers in the physician practice setting. Through our comprehensive resources, innovative programs, and engaging conferences, we aim to elevate the standard of care, promote evidence-based practices, and foster a vibrant community of healthcare professionals.

Join us in shaping the future of athletic training in the physician practice environment and making a lasting impact on patient well-being. Every year, hundreds of athletic trainers, providers, allied health professionals, administrators, and healthcare executives gather at the ATPPS Annual Meeting and Conferences, which aims to inform them about the latest trends in physician practice settings, effective strategies for managing operating rooms, specialized orthopedic assessments for specific populations, medical considerations in patient care, and the expanding administrative and interpersonal aspects within the evolving field of athletic training.
